

SAP215-217

Inleiding

Onze “Croonestukken” geraken stilaan thuis in de processen. Het nummer twee bracht een uitgewerkt proces. Voor wie wat thuis wil geraken in de procesgang is dat wel handig.

We maakten een transcriptie van een bundeltje handschriften.

Omwille van de cursus Oud Schrift van dit jaar (1991) doorploegden we de buurt van 1736. We namen SAP 215-217 ter hand en bieden U hiermee de klapper. De documenten werden met potlood genummerd en we noteerden voor zover mogelijk en voor zover duidelijk de eerste datum op het document. De eventuele vermelding oppositie, daging, pacht, panding is occasioneel meegenomen.

Voor wie vroegere processen wil nagaan signaleren we andere werkjes uit de “Croonestucken“, nl. nr. VII, waarin we 1641-1649 van de dagingen op index hebben gezet. In die publicatie werden wel de redenen van het proces en de getuigen vermeld. In 1989 hebben 1689 geklapperd ( Croonestucken, nr. XII).

Nog vroegere gegevens (voor 1600) werden genoteerd in “Croonestucken XI en XIII.
